Client Meeting Form

Project Name Garvis Pool Repair
Your Name Haley Ovenhouse
Meeting Date 2/~~5~~ 28/2018

PRE-MEETING PREPARATION

Not much work on the actual project since the last client meeting. Mainly, I've been focusing on learning everything, ~~that~~ about Swift 4, IOS 11, and Xcode 9, that I would possibly need to know to complete this project. With the knowledge I have gained this far I have been able to make more screens and the flow between the screens functional when the corresponding buttons and such are selected. I will present to the client what we have so far, get their feedback and implement any changes they would like to see.
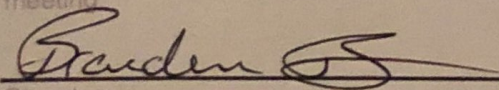

MEETING NOTES

- Make backgroup picture of a pool or something so it doesn't look so blockish
- Make icon the Garvis Pool Repair Logo.
- Assign a work order to a specific employee when creating it and setting a date and time.
- Likes color ~~logo~~ scheme (their colors)
- Flow of windows is correct and to their specifications.

CLIENT SIGNATURE

Signature

As the project client, your signature indicates that the team member named above attended and contributed to this meeting.
